### **Courtyard by Marriott® Miami Downtown Revamps Website**

**MIAMI, FL — May 9, 2006** — The Courtyard by Marriott® Miami Downtown re-launched its website this week. The hotel is a member of the Marriott Hotel brand's and offers 231 well-appointed guest rooms and suites as well as complimentary high-speed Internet access throughout the property. The website address is [www.miamicourtyard.com](http://www.miamicourtyard.com) and is live on the world-wide-web. The updated site features a new enhanced look, improved navigation, and easier access to information about the hotel and surrounding area.

“When we did our annual strategic planning recently, one area of opportunity that came up was to improve our existing private website for the hotel. With more and more guests using the Internet to shop for lodging accommodations we wanted to increase our visibility on the Internet,” remarked Peggy Jimenez, Director of Sales. “We’ve added new features such as a local events calendar, special information pages, the monthly posting of our evening reception menu and new links to make a reservation. Of course we kept some of our popular features such as local area attractions and businesses,” remarked Ms. Jimenez.

The website for the Courtyard Miami Downtown contains information about the amenities of the hotel as well as regional points of interest, businesses, leisure activities, and restaurants. Guests that book from [www.miamicourtyard.com](http://www.miamicourtyard.com) will re-directed to Marriott's branded website for Courtyard® where the best available rate will be obtained. In addition to the comfort of booking directly from Marriott, the new website assures travelers that they will earn their valuable Marriott Rewards® points. Marriott Rewards® is the industry's leading guest loyalty program that earns complimentary stays throughout the Marriott system and offers various ways to redeem your points for other travel and merchandise.
